### Wood Color & Finishes

#### **Wipe Stained Finish Colours**

This stained finish is carefully hand wiped by our craftsmen to highlight the natural wood grain.

#### **Wire Brushed Finish Colours**

This finish, which has 10% sheen, gives a unique vintage look. A gritty sand paper is used to create multiple parallel lines, all fine and shallow, to enhance the timeless beauty of solid wood. Not available on all pieces.

#### **Heirloom Finish Colours**

The Heirloom finish is characterized by a distressed look with random dents typical of furniture handed down from one generation to the next.

#### **Chamois Finish Colours**

The Chamois finish creates a rich, smooth, shimmering feel without any distressing. It is the perfect finish to enhance different shades and patterns of wood grain.

### **Artisan Finish Colour**

The Artisan finish is spray by water for the Chamois effect and is distressed and embossed with nicks, dents, marks, cracks and scratches.

### **Century Finish Colours**

The Century finish is distressed and embossed with dents, cracks and chips to give wood a warm, inviting century-old look.

### **Opaque Finish Colours**

The Opaque finish (previously called Antique) is a paint finish that masks the wood grain to create a perfectly modern look.
