Our most innovative massage chair

Details

Specifications

## **Chair Doctor™ Powered by AI**

One of the most important massage advancements to date, the Chair Doctor™ program, uses AI technology to create a massage based on your current tension and stress. Using the hand-held biometric scanner, GSR control sensors are utilized to send biofeedback information to sense your tension areas. PPG technology can read your heart rate to analyze your stress levels. The Chair Doctor™ also measures your SP02 blood oxygen levels. The program uses all of this data to provide a unique massage just for you.

## **Dual Lumbar Massage**

Dual air compression chambers are strategically placed in the left and right sides of the lower back to target and release stiffness. Pressure within the airbags provides micro- adjustment of the spine for unbeatable stretching and spinal alignment. The air compression areas can be independently adjusted with 3 levels of intensity.

## **Immediate Pain Relief**

Compressed spinal discs are the leading cause of back pain. If you suffer from this the Qi XE Pro (CZ-716) offers four different stretch options. The Cozzia Qi XE Pro (CZ-716) holds you in place, bends you backward slowly but firmly, which takes pressure off the discs in your spine providing a similar effect to a therapeutic spinal adjustment at a chiropractor's office.

### **Tri-zone Heat Therapy**

Heated care targets the lower back, buttock, knees, and calves. Dual heating in the left and right sides of these regions relieve tension and relax the underlying muscles and joints.

### **L-Track**

The more massage coverage with the massage rollers, the more healing, the more relaxation. The Qi XE Pro (CZ-716) massage chair uses a 53-inch-long massage roller track that follows the natural shape of the spine. The L shaped track allows for massage starting at the back of the head, neck, and shoulders, traveling down the spine contouring underneath the glutes to target and release these important muscle groups.

### **M.5 Gen Microprocessor**

The M.5 Gen Microprocessor results in faster speed, higher accuracy, and a better massage.

### **Brushless DC Motor**

A smaller, faster motor outputs more power with less friction and noise, extending the life of your chair.

### **4D VarioMotion™ Intelligent Rollers**

Bringing your massage therapist home, the most advanced 4D rollers glide with precise motions, and meticulous speed adjustments, that emulate the human hands for therapeutic massage. With a wider massage area than ever before, the updated 4D VarioMotion™ rollers deliver a more accurate massage than any other massage chair. Fast sensing technology elevates the massage by targeting therapy to problem areas and quickly relieve tight back muscles. Pinpointing key muscle groups along the spine, Smart Acupuncture Point Detection targets 36 Acupuncture points for optimal spinal relief.

### **Quick Action Massage**

The quick action air compressor gives you an intelligent air squeeze massage on both arms.

### **Hand-Crafted Upholstery**

The Cozzia Qi XE Pro's (CZ-716) sleek lines and handstitched upholstery are tested to last. Withstanding 100,000 oscillating cycles, this chair has the looks and ultimate durability to ensure beauty that lasts.

### **Voice Control Compatibility**

Have control over your massage and your chair, just by using your voice.

## **Light up your mood**

The Qi XE Pro (CZ-716) has unique LED chromotherapy lighting that moves in patterns and changes colors depending on the option you choose. Enjoy your own music through the built-in speaker and drown out the outside world.

## **Air Compression Massage**

Air compression massage aids in circulation for faster healing and better overall health. The Cozzia Qi XE Pro (CZ-716) employs 64 air compression chambers to target and release stiffness.

## **Smart Dial and Quick Action Controls**

Use the quick action controls to get into a relax and stretch program straight away, adjust the heat, or control the recline adjustments of your chair. The smart dial allows you to power on and off the chair quickly and adjusts the back massage intensity on the fly by simply turning the dial right for more depth or left for a gentler massage.

## **7" Touch Screen**

Large touch screen remote powered by 5th Gen Microprocessors. Global massage programs, including Swedish, Chinese, Thai, Japanese, and Balinese. Full body stretch programs and AI-designed programs for the spine and back. Partial body programs target problem areas like the neck and shoulders, or lower back. Create/tailor a program specifically for you, and save it for reuse.

## **Adjustable Leg Extension**

The automatic leg extension will accommodate everyone in the house with 11 inches of length adjustment. The stop sensor feels the bottom of your foot and stops for the perfect leg position.

## **Advanced Reflexology**

The Qi XE Pro (CZ-716) has tri-action foot rollers that use two levels of shiatsu foot rolling combined with immersive air pressure massage to create deep tissue foot massage.

## **USB-C Charging Port**

Now you can recharge your phone, while recharging your body. The Qi XE Pro has a USB-C charging port located on the left-hand side of the chair, next to the wired remote control.

## **Cozzia Concierge Service**

We pride ourselves on our unmatched customer experience. We promise to provide quick and painless customer service, with knowledgeable and well-trained representatives and technicians always around to help.

## **In-Home Repair Service**

If needed, we'll send our superhero Service Technicians to your home to figure out and fix anything.

## **If We Can't Repair It, We'll Replace It**

If our technicians are unable to fix your chair, we will replace it for free\*.

\*Applies to chairs under Cozzia's standard warranty or extended warranty only. 3rd party extended warranties, and chairs out of warranty are not covered by Cozzia's guarantee.

## **Experienced Service Technicians**

Our technicians know our massage chairs inside and out... literally. And they are here to help either via phone, email or they can come to you!
