8' Championship Invitational Cloth with Teflon - Brown

Details

Description

Championship Invitational 4066 is a 20oz weight woolen cloth that consists of 75% wool and 25% nylon. Invitational cloth is bathed in Dupont Teflon to provide the most spill/stain protection available, making Invitational the #1 selling billiard cloth in the world. The active shearing process ensures minimal piling and a consistent level playing surface. Perfect for the home, but will satisfy pros and amateurs alike.

Championship Invitational woolen blend is a great option for good all-around play for any home pool table. The cloth has a slight nap, or fuzz, on the surface of the cloth resulting in a slower playing table.

*Colors can vary from screen to screen
