Do you love the rustic style of wood but don't have time for extensive maintenance? Look no further than the Biltmore Antler Hill collection by Castelle.

Biltmore's Antler Hill Village is anchored by a century-old horse barn that was once the social and work center for estate families, who lived in charming farmhouses and cottages in the surrounding area.

Inspired by these historic structures, our Antler Hill Collection offers a more casual way to bring home the Vanderbilt legacy of gracious living. This collection celebrates the unique pastoral style of rustic yet sophisticated outdoor furnishings with distinctive faux bois elements.
