DETAILS

Maximum power and effects!

Thanks to its CARBON TECHNOLOGY insert and its DYNACELL sponge, the Excell 3000 Carbon bat is a genuine reference for OFF+ table tennis players. The AERO SOFT and OFC technologies provide ball control and good contact, whilst the top-sheet EFFICIENT CURVE ensures very sound trajectories and the maximum of topspin rotation.

SPECIFICATIONS

FEATURES

- Dynamic 2mm foam ensures a very high speed play
- Innovative outdoor rubber ensures a great transmission of spin
- 100% carbon insert present on the handle/paddle attachment increases the rigidity of the bat and enables more power in the game
- 5-ply blade will provide you both sensations and speed play
- The optimisation of the nature and structure of the material is the key to the elastic properties of a sponge and it takes energy release to a whole new level. This key now has a name: Dynacell
- AERO SOFT enables optimum transmission to the handle of shock waves created on impact with the ball. The

hand's sensory system, with its improved touch interface, immediately processes the sensations necessary to provide the perfect response!

- Flared handle has a comfortable grip for everyone
