Available Bases

Wood Color & Finishes

Wipe Stained Finish Colours

This stained finish is carefully hand wiped by our craftsmen to highlight the natural wood grain.

Wire Brushed Finish Colours

This finish, which has 10% sheen, gives a unique vintage look. A gritty sand paper is used to create multiple parallel lines, all fine and shallow, to enhance the timeless beauty of solid wood. Not available on all pieces.

Heirloom Finish Colours

The Heirloom finish is characterized by a distressed look with random dents typical of furniture handed down from one generation to the next.

Chamois Finish Colours

The Chamois finish creates a rich, smooth, shimmering feel without any distressing. It is the perfect finish to enhance different shades and patterns of wood grain.

Artisan Finish Colour

The Artisan finish is spray by water for the Chamois effect and is distressed and embossed with nicks, dents, marks, cracks and scratches.

Century Finish Colours

The Century finish is distressed and embossed with dents, cracks and chips to give wood a warm, inviting century-old look.

Opaque Finish Colours

The Opaque finish (previously called Antique) is a paint finish that masks the wood grain to create a perfectly modern look.
