Accentuate your outdoor experience with the simplicity of the Acadia Gobi 36" Desert Cor-Ten Fire Pit

## Details

### Specifications

This rustic, sturdy-built fire pit is made of corten weathered steel, which overtime will naturally show a unique, colourful patina.  Keep your guests cozy on cool nights all summer long.

This corten steel fire pit will become the focal point of your entertaining area! This fire pit is made out of corten steel which not only makes this fire pit extremely durable, but also gives it a very unique style that sets it apart from all other fire pits. This type of steel is also made to change slightly as the years pass, giving it an even more unique weathered look that is very sought after. It will reach its peak patina in 2 to 4 years, and then will remain at that state with very little change.

We have the size that will fit perfectly in your backyard. We offer this fire pit in 28", 36", and 40" Diameters. This way you can have more room for people to sit around and enjoy the fire without being squeezed in. This bowl also gives you plenty of room for the fire wood, allowing you to have a fire of any size you wish.

**Diameter:** 36"

**Height:** 14"
