# McDermott NG08 Stinger Break Jump 3pc Pool Cue

McDermott Stinger 8 NG08 3pc

## Details

### Specifications

- Black paint
- "Stinger" graphic overlay
- 3/8"-10 main joint with phenolic insert
- Quick release jump joint
- Patented Stinger shaft with 13.25mm phenolic tip
- Textured sport grip wrap

### Patented Tip/Ferrule Technology

The tip features a "stinger" stem that projects downward through a hole in the center of the ferrule. On impact, the shock of the hit goes to the center of the tip and down the stinger stem, transmitting the impact directly to the center of the shaft. This results in a very efficient, precise hit.

### Enormous Sweet Spot

Stinger technology takes the hit energy through the center of the shaft, regardless of where the ball hits the tip. Our tip can be shaped flatter than a typical break cue's tip. The flatter profile causes the Stinger tip to have a huge "sweet spot." You can mishit and still get the result you intended.
