Details

Description

The Reveal coffee table top raises to a comfortable height for seated use, while storage compartments keep everyday essentials from gaming controllers to remote controls, laptops, and reading material close at hand.

Whether as a versatile workspace or an attractive coffee or side table, these unique designs smoothly glide from their lowered position to the perfect height for work or play.

Smooth Operator

Pneumatic supports provide a smooth opening and closing motion aided by a contoured finger-pull notch under the tabletop surface.

Satin-etched Glass

The durable—yet incredibly soft-to-the-touch—satin-etched glass top surface is forgiving of fingerprints and daily use, concealing a larger storage compartment contained underneath when closed.

Stowaway

Reveal's side storage is ideal for easy access to smaller items like remotes and game controllers, while the larger concealed storage is perfect for a laptop, books, or other neatly tucked away items.

More Than Meets the Eye

Reveal is so much more than a beautiful coffee table. It's a versatile motion table with so many practical applications, from a convenient workspace to a place to enjoy a meal in front of the television or keep essentials organized and within reach.
