Our entry-level zero gravity recliner has all of the benefits of zero gravity, with synthetic hyde, hand-carved wood base, lumbar vibration massage and heat, relaxation, self-care, quicker recovery, and back health are here.

## Details

### Introduction to Zero Gravity Relaxation

Svago Zero Gravity Recliners are designed to suspend your body into a neutral posture where your feet are elevated in alignment with your heart, creating a weightless feeling.

This position helps to reduce pressure on your spine and joints, improve blood circulation, and ease muscle tension. Svago chairs are the ultimate zero gravity recliners built with the best hand crafted materials and state of the art technology. The Svago lite 2 is our latest entry gravity recliner to enjoy all the benefits of zero gravity relaxation in the comforts of your home.

### Dial to Bliss

Life is complicated enough, so relaxing should be simple. Use the smart dial to recline all the way into zero gravity position, or stop in any position by simply letting go.

### Every Chair Comes With a Massage

With our intelligent vibrational technology, you'll get a full back massage allowing the muscles to relax and improve blood circulation throughout your body. Deep healing and relaxation within a matter of minutes comes standard in this zero gravity recliner chair!

### **Arm Rests that Let Your Arms Rest**

Ever notice how in recliners, you have to do a massive, awkward and uncomfortable readjustment of your arms when you put the recliner back? We made sure to pay special attention to the armrests on our zero gravity recliners, since we know they help align and support your body in a way that allows maximum decompression of the spine; a feature especially crucial for acute back pain.

### **Crafted with Style**

Our synthetic hyde and hand-carved wood base adds elegance and style to your home. The durability and superb craftsmanship allows you and your family to enjoy the chair for years to come.

### **Heat Where it Counts**

The lumbar spine is the most receptive part that benefits from heat and vibration. The Lite 2 zero gravity chair specifically focuses on this area; the heat helps dilate blood vessels, increasing oxygen flow and nutrients to tissues. The vibrations help to contract and relax muscles, loosening knots and tension. This relieves pain, gives the heart a rest, and creates overall muscle relaxation and healing.

### **Freedom to Personalize your Comfort**

With its dual actuator mechanism, the Svago Lite 2 zero gravity chair can be adjusted in just about any way. Using the dial, you can move the footrest and backrest independently so that you can sit up to watch TV or lay back to get the full zero gravity effect. We made it easy to use, so you won't have to get up, talk, or be interrupted in any way during your massage.

### **Dial It Up**

You're fully in control of your comfort with our easy-to-navigate dial. With a turn of the dial, you can recline both the back and footrest. To make adjustments on the footrest press the dial to switch to the footrest actuator and turn the dial for the desired position. You can also turn on a relaxing vibration massage program and soothing heat therapy with the touch of a button

## **Specifications**

### **Material and Construction**

- Steel Frame
- PU Foam
- Synthetic Hyde
- Solid Wood Base

## **Power and Safety**

- Power Voltage: 120v
- Rated Frequency: 60Hz
- Power Supply Wiring Length: 9'
