Specifications

Experience Zero-Gravity Floating

Float on air with a 280-degree swivel unlike any other massage chair, so you can watch that gorgeous sunset outside your window. With a heavy-duty base that brings you from 0 to 180 degrees at the touch of a button, rest easy and recline at zero gravity - designed to decompress the spine and relieve pressure and pain, while rehydrating discs.

Designed to Show Off

Finally, an elegant massage chair you'll want to show off. The Swivel has a sleek design made with 100% top-grain, buttery-soft leather that comes in taupe, toffee or black, pairing well with the natural wood and walnut base. Lay back in style with your new favorite living room staple.

You're in Total Control

The Swivel is smart. Its intuitive easy-to-navigate remote control and dial give you full access to change your backrest and footrest settings at any time. Fast USB charging gives you an on-the-go break to recharge anytime. The accommodating headrest lets you relax easier and a multiple adjustment independent footrest helps you dictate your massage the way you want it, no matter your height, shape or posture.

A Massage That Goes Deeper

Our massage doesn't stop at just the muscles and tissues. Two air massage programs deliver gentle pressure that comes over your entire body in waves, targeting beyond the muscles and tissues and into the nerve endings and receptors, increasing blood flow and circulation. This also helps improve the lymphatic system by removing toxins in the body and alleviates pain, swelling and inflammation. Low back heat therapy adds another dimension of care with powerful pain relief.

A Graceful Exit

At the touch of a button you're floating on air, and when you're ready to end your message, simply press a button and stand upright again, ready to tackle the rest of your day a bit lighter, a bit calmer and much more pain-free. Come back to your Swivel anytime for a bit of de-stressing, de-knotting and for total peace of mind.

Specifications
