Svago ZGR Plus Zero Gravity Chair

Sale Price: \$1,999.99 [See Product Details](#)

Free Local Shipping Lead Time: Arrives in 3-5 weeks

The classic ZGR offers quality, comfort, and style. Hand-stitched vegan synthetic hyde, hand-carved, hand-stained solid wood base, vibration massage and heat all deepen the restorative zero gravity experience.

Details

Description

The ZGR can be used as a traditional recliner, but it's magic is in Zero-Gravity position, where it helps your body literally decompress from the stress that gravity puts on you every day. Gravity keeps us grounded, but it also weighs us down, compressing discs, tensing up other muscles that have to compensate, and it takes time to recover. In our Zero Gravity position, gravity isn't pushing you from the top down, so your discs can re-hydrate, and your weight is evenly distributed allowing muscles to relax in a way that no masseuse, chiropractor, acupuncturist, or pilates could ever accomplish.

Defy Gravity With The ZGR

The ZGR can be used as a traditional recliner, but it's magic is in Zero-Gravity position, where it helps your body literally decompress from the stress that gravity puts on you every day. Gravity keeps us grounded, but it also weighs us down, compressing discs, tensing up other muscles that have to compensate, and it takes time to recover. In our Zero Gravity position, gravity isn't pushing you from the top down, so your discs can rehydrate, and your weight is evenly distributed allowing muscles to relax in a way that no masseuse, chiropractor, acupuncturist, or pilates could ever accomplish.

Take A Load Off

With the touch of a button you can go from upright or semi-reclined to Zero Gravity position and relieve yourself of the weight of gravity. In Zero Gravity position your weight is evenly distributed and fully supported. This position is completely unique in it's ability to neutralize gravity and allow healing, repair, and prevent aging.

I Didn't Know You Were Vegan!

The ZGR is appointed in super-soft, "vegan" synthetic hyde. Easy to care for and a sustainable, earth-friendly option for those who prefer not to use animal products.

You're the Boss

You are in control of your comfort with our easy-to-navigate, full-featured, hand-held remotes. Just the right size and button spacing to be easy to find, easy to put away, and easy to navigate. And we're pretty sure you'll spend so much time in your Svago that you'll memorize those buttons and not even have to look anyway!

Top Down Customization

The ZGR's manually adjustable neck pillow offers the supportive benefits of memory foam for your head and neck, which can often carry a lot of tension. Having full support from your pillow makes a big difference! The ZGR also comes with a manually adjustable lumbar pillow and remote controlled footrests. You are able to adjust the angle of the footrest to the exact position that feels best. This is especially helpful for shorter or taller users.

You Feel That?

Loosen and soothe tense or aching muscles with two vibration massage programs. Add in heat while you're in zero gravity position and feel the trifecta of healing and relaxation.

Smart Wake Up Programs

A side-effect of relieving gravity's weight from your body is total relaxation. The ZGR offers Smart Wake-Up Programs, so you can make sure you don't rest for any longer than you want.

Specifications

Material and Construction

- Steel Frame
