The Time Surveyor is a stunning Howard Miller tripod grandfather clock with unique design elements.

Details

Specifications

The tripod design of this unique clock with metal accents finished in antique brass is inspired by the classic land surveyor's equipment stand for a theodolite. The fixed-height legs feature a Rustic Cherry finish on select hardwoods and veneers, lightly distressed for an aged appearance.

This tripod grandfather clock's stationary aged dial features black Roman numerals, a minute track with Arabic numerals, and black finished spade hands. A wide antique brass bezel with rivet detailing frames the dial, behind convex glass. The antique brass-finished pendulum bob is suspended on a wood stick finished in lightly distressed Rustic Cherry.

Made from a combination of hardwoods, veneers and antique-style brass finished metal, this handsome floor clock will be a definite conversation starter in any space you place it.

Dimensions
