Description

The Official Table for Competitive Play

- The Tornado Tournament 3000 Foosball Table is certified by the International Table Soccer Federation (ITSF) for tournament training and tournament play. The T-3000 is also the only official table for the Tornado National Foosball League and the Tornado National Tour. It's the most commonly used tournament foosball table in the world.

What Sets the T-3000 Apart?

- Ships 90% Assembled - The T-3000 ships 90% assembled. The cabinet and framing arrives assembled, so you don't have to do any major construction. You'll be able to play your first game within 30 minutes!
- Superb Design and Aesthetic Appeal - The T-3000 comes with a commercial-grade wood cabinet (frame) with a stainless steel laminated finish.
- Non-Slip, Eight Sided Handles - Each handle is molded with specialized high-traction non-slip materials. These handles are designed to provide the maximum force and perfect grip for making rapid shots.
- Hollowed Steel Rods for Speed Shots - The T-3000 features hollowed out steel rods. The hollow centers means

players need to exert less energy for a kick, which translates to faster spins and higher powered shots.

- High-Strength Rod Bearings - The bearings are the plastic pieces at the end of the rods, where the rods and the table connect. The T-3000 features high strength, specially designed bearings that offer top notch control. They also allow you to block powerful shots, without the table or the rod shaking.Tornado’s patented split bearing design combines durability, function, and ease of replacement and removal for cleaning
- Improved Player Figures with Wider Corners - The new Tornado player figures come with wider foots for better shots. The rectangular sides and cross hatchings increase traction on the ball and improve ball movement.
- ITSF-Sanctioned Score, Match and Game Counters - Say goodbye to old fashioned score counters. With the T-3000 counters, you'll be able to keep track of matches and games, instead of just individual game scores. Want to play "best of three" like the pros? The T-3000 makes it easy!
- Commercial-Grade Legs with Included Levelers - Having a flat playing surface is critically important in foosball. That's why the T-3000 is designed with high stability, commercial-grade legs. Leg levelers are built in to ensure a flat playing surface, so no one side has an advantage.
- 100% Made in America - The Tornado Tournament 3000 Foosball Tableis built in Richmond Hills, Texas. Not only are you supporting US manufacturing by purchasing a Tornado table - you're also getting the highest quality materials from local producers.
